TO OUR SUBSCRIBERS IN URUGUAY, PARAGUAY AND BRAZIL.

On and after 1st January 1892 the subscription for the STANDARD will be one gold dollar monthly, or 10 dollars per annum if paid in advance, for the daily paper; and half that price for the weekly paper or packet edition. Those persons who have already paid in advance will be allowed the difference.

When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices, do not require to be lured back by catchpenny reductions.

TELEGRAMS TO STANDARD.

Massouah 6th—The Cholera is depopulating this region and Harrav; and its principal victims are the natives.

Rome 6th—The Vatican has demanded from the French Government more effective protection for the Catholics in the East.

This demand is founded on the persecution to which the Catholics are now subject in Tripoli.

Rome, 6th—The Italian Government has refused the proposal of Sr. Rossi to put Lombard and Venetian families as settlers on the Crown Lands. In consequence of this resolve the families in question emigrate to Brazil and the Argentine Republic.

IMPUNITY FOR CRIME.

Advices from Mendoza mention that the parties arrested for the murder of Mr. Hiron have been set at liberty. We may, therefore, abandon all hope of seing the perpetrators of this wanton and horrible crime made amenable to justice. In like manner we saw last week that the policeman Ramos, of Belgrano, who attempted to rob a milkman, and who was known to have committed several crimes before, was allowed to escape from the police-barrack while under arrest. In Santa Fé matters are quite as bad, if not worse, and the authorities take no pains to repress crime: in fact the local authorities in many places are openly accused of complicity in murders and robberies.

All this is exceedingly disgraceful, and we appeal to the President-elect, Dr. Saenz Peña, to put aside every other consideration when he takes office, and devote all his efforts to punish crime. He has himself borne a high character on the judicial bench, and must thoroughly understand the necessity to make the law respected from end to end of the Republic. There was a time, in the good old days, when Valentin Alsina was Governor of Buenos Ayres and Gen. Urquiza President of the Argentine Confederation, and a man might live in security in any part of the Republic. Murders were committed now and then, but the assassins were shot. In the last 30 years, however, things have been going from bad to worse. There has been nothing short of a carnival of crime in the last two or three years, and unless Dr. Saenz Peña does something to punish murderers taken red-handed the condition of society will soon become absolutely unbearable.

MUNICIPAL TAXES.

Aux armes, citoyens! The budget of the city of Buenos Ayres is to be presented this week to the Municipal Council, and it is only proper that the public should know the actual condition of the finances. It is perhaps mainly due to the indifference of the tax-payers that the public money has been squandered so recklessly in one form or other.

Revenue and expenditure for the last 5 years shewed as follows:—

Year.	Revenue. $ currency.	Expenditure. $ currency.
1887.....	5,100,000	10,060,000
1888.....	5,050,000	14,780,000
1889.....	7,060,000	25,760,000
1890.....	6,860,000	11,950,000
1891.....	7,150,000	8,070,000
5 years..	31,220,000	70,620,000

The expenditure was much more than double the revenue, leaving a deficit of 40 millions on the 5 years. Hence it is not surprising that the debt on December 31st 1891 amounted to 104 millions currency, viz.—

	$
London loan (£2,000,000) ..	37,300,000
Internal debt	49,800,000
Floating do.	17,000,000
Total	104,100,000

The above, moreover, does not include the Bateman Legacy, £6,300,000 or 110 millions currency, which brings up the city debt to (at 330 paper to 100 gold) 210 millions currency, or nearly 400$ per inhabitant. This is a prodigious burthen for any city, as will be seen when we compare the debt, in gold dollars per head, of various cities as follows—

Gold $ per inhabitant.

B. Ayres....	90	Naples.....	50
Berlin.....	25	New York	96
Boston	80	Paris.....	171
Copenhagen	22	Rome.....	40
London.....	27	Stockholm	15
Manchester	55	Vienna.....	40

The incidence of debt is three times greater than in London, and is only surpassed in Paris and New York. It is, therefore, high time to prevent any further increase, and to insist on the city-finances being so handled that expenditure and income balance.

The Budget for 1893 as at present proposed stands thus:

Income.	$ currency.
General tax	3,000,000
Patentes	1,000,000
Markets	1,700,000
Sundries.....	4,002,000
Total.....	9,702,000

The average municipal revenue for the last 5 years was $6,240,000, so that the estimates for 1893 shew an advance of 50 per cent in taxation on the years 1887-91, or of 38 per cent on the year 1891. We very much doubt whether the revenue will really produce $9,700,000 next year.

Turning to expenditure we find that the averages for the principal items in the last five years shewed—

	$ currency per annum.
Lights.....	590,000
Scavengers.....	940,000
Hospitals, &c...	1,140,000
Sundries	11,450,000
Total.....	14,120,000

The estimates of expenditure for 1893 sum up 8,870,000$ currency, which would leave a surplus of 800,000$ in case the revenue were to reach the amount estimated. This is, of course, exclusive of the service of debt, which (at 7 per cent) would alone require 7,000,000$ currency or as much as the total municipal revenue produced in 1891.

We do not seek to harrow the feelings of our readers unnecessarily by dwelling on the painful condition of the London bondholders. It is sufficient for the present to put them out of sight altogether, and to confine our attention to the pressing requirement of municipal service in our city. Are the citizens able to support an increase of 50 per cent in taxation over the average revenue of the last 5 years? Will it be possible to keep the municipal expenditure for 1893 within the strict limits of the municipal receipts. These are the burning questions of the hour.

SPORT IN SOUTH AMERICA.

(By Admiral Kennedy.)

This charming little book has just been published in London by the gallant officer who was for some years Commodore on the South-east Coast. It gives his experiences during three years, in which his vessel, H. M. S. Ruby, visited every place of interest from Rio Janeyro to Cape Horn.

The quantity of game killed by him and his officers in that time was 13,349 head, and he adds that what was killed was never wasted, as he had to feed 250 men on board. Partridges, hares, rabbits, snipe, ducks, wild geese and wild turkeys formed the principal items in the list, and among large game he mentions deer, guanacos, ostriches, carpinchos and wild cattle. He says that the sportsman need not expect to find tigers or lions, but alligator-shooting may be indulged in at times. He recommends a pair of serviceable 12-bore guns and an express-rifle, as the best arms. Among the shooting matches that he had was one with the late Dr. B., an American dentist of Montevideo, which came off in the Santa Lucia woods: the doctor killed 38 brace in one day, the admiral 41. A return match was agreed on, but unfortunately the doctor died a fews after the first.

During a visit to Mr. Shennan's estancia the admiral and one of his officers killed 17 swans in one day on the Salado. He afterwards went to shoot guanacos at St. Helena Bay, on the coast of Patagonia, 75 S. Lat., where large herds of these animals were seen from the anchorage. A full-grown guanaco weighs 180 lbs., and it requires 4 men to bring in the meat, which resembles venison. The Cavy or Patagonian hare is a fine animal, weighing 20 lbs., and excellent to eat. There are 5 kinds of deer, the Ciervo or red-deer being larger than the red-deer of Scotland: they are common in the Chaco. The Gama is a small deer, of which he killed 28 in one week at San Blas.

His remarks on the port of San Blas are worthy of notice with reference to the proposal of creating a naval arsenal on the seaboard for Argentine warvessels.

"This harbor is one of the finest on "the coast of Patagonia, when once in- "side, but the entrance is masked by "sand banks. There is a deep-water "channel between the reefs, and if it "were properly marked with buoys "there would be no more difficulty in "entering the port of San Blas than "there is in entering the month of the "Thames. It is the only port on the "whole coast, except Egg Harbor, where "ships can anchor within pistol-shot of "the shore in perfect safety, sheltered "from the prevailing winds and with "good holding ground.

"It is amazing to me that the Argen- "tine Governmen is not alive to the im- "portance of the place, both for naval "and commercial purposes, and it "might with very little trouble or ex- "pense be rendered impregnable in "time of war. The Rio Negro, further "south, has a bar at its mouth, and can "never be of much use except to vessels "of light draught. Bahia Blanca is also "a bar-harbor, but the buoys are usually "in place, and there is no danger in en- "tering. It will become of importance "when the propo ed railway across the "Andes (to Valdivia) be made."

The book is very handsomely illustrated, and contains many interesting chapters on the Welsh Colony, the Falkland Islands, Paraguay and the Gran Chaco.

THE GALICIA MAILS.

London, July 9th.

The presence of foreign Protestant missionaries in Algeria is becoming so special a cause of worry to the Governor, M. Cambon, that he has called M. Ribot's attention to the fact, which he thinks may "end in serious difficulties". M. Ribot has, therefore, directed M. Waddington to bring the matter before Lord Salisbury, and the French Minister has written asking that London missionary societies shall henceforth abstain from sending representatives to that colony. The letter goes on:—"With a view to preventing the troubles which are in Mussulman countries too often the consequence of a religions agitation, my Government has already forbidden among our own people every kind of proselytism of this sort. . . . Allow me to recall the grave reasons obliging us to oppose absolutely the development of any religious propaganda in Algerie. You well understand that the general rule which we have imposed upon our own people cannot suffer an exception in reference to foreigners. We therefore hope that the English missionary societies will take upon themselves to recall their representatives and spare us the painful necessity of directing them to leave our territory".

The Russian Minister of the Interior has suspended all passenger traffic on the Caspian between Baku and the mouth of the Volga in consequence of the cholera epidemic until, a quarantine of seven days has been established at Derbend. Local newspapers give a terrible account of panic and disorder at Tiflis. The body of one person who had died of cholera was actually washed in the public baths and left for some time unburied. In spite of all efforts to keep the cholera away the official *Gazette* announces cases at Astrakhan. The epidemic has, therefore, entered European Russia, and at one of its most insanitary points.

Considering the enormous extent of territory over which the cholera is admitted to have spread, and the comparative isolation of many of the places mentioned, the epidemic has travelled fast. It as been decided not to postpone the Nijni Novgorod Fair. Officials have been sent to Nijni Novgorod and Moscow to consult the Exchange Committee as to the disinfection of goods and as to precautions generally.

Not only from Baku, but from the other towns of the Caucasus where the cholera has broken out, comes the same story of the incapacity of the local officials and of the filthy state of the populous quarters of the towns. The food used by the lower orders is described as absolutely injurious to health, and drainage does not exist. In fact, Saratoff is the only town where preventive measures are being energetically and intelligently employed.

At a meeting of the consulting committee of the Board of Public Health at Paris on Monday, Dr. Proust reported on the sanitary condition of foreign countries. After referring to the spread of cholera to Baku both from the north and from the Caucasus, he said that the greatest vigilance was necessary, as, if the contagion spread to the Black Sea, there was every prospect of the epidemic following the line of the visitations of 1831 and 1847.

A telegram from New York says:—A terrible disaster has befallen St. John's, Newfoundland. A fire has laid the centre of the city in ruins, and when the latest news left was still spreading. The Government offices, the Protestant and Roman Catholic cathedrals, the Methodist College, the Masonic Temple, a number of warehouses, wharves, and hundreds of houses have fallen a prey to the devouring flames. The Parliament buildings and the Governor's palace are also threatened. Three thousand persons are not only rendered homeless by the awful catrastrophe, but find themselves deprived of all their possessions and in a state of destitution. News reaches this city slowly from the scene of the disaster, as the telegraph wires within and across St. John's have been destroyed.

OUR LONDON LETTER.

(From our own Correspondent.)

THE ELECTIONS.

July, 8th.

Ere this reaches you, the 'quidnuncs' of Buenos Ayres will long have done discussing the final result of the great struggle now going on in this country, but for many weeks hence you will be engaged in studying the causes which have led to that result, whatever it may be. The *Daily Graphic* contains each day an amusing sketch showing Lord Salisbury and Mr. Gladstone climbing a ladder, the particular rung denoting the state of the poll up to date. At present, Lord Salisbury is far above Mr. Gladstone, but the old man is crawling up slowly. Their relative positions at the close we shall be able to guess at with more certainty to-morrow. Meanwhile the country and London in particular are very much excited. There is no visible excitement except in the clubs and centres of political organisation. The newspaper offices in Fleet street are invaded by crowds of eager politicians awaiting the arrival of telegrams about midnight, with the results of the metropolitan and country elections. At the same hour the great smoking room of the National Liberal Club presents a sight which one might in future recall as historical. The political room usually so quiet is now crowded nightly. It looks like 'high 'change' at Manchester or Liverpool, except that the air is clouded with tobacco smoke and servants are pushing their way through the jostling throng with whiskies and sodas that rarely arrive at their destination or only with large deductions for leakage and breakage. The clock at the end of the room that is accustomed to mark the almost silent hours is now hidden by a huge board upon which is the register of the electoral contest of the day. As the telegrams arrive the numbers are filled in after being read aloud; as for instance, 'Montrose Burgs' Liberal majority so and so. Then comes a lusty cheer with cries of "bravo Scotland". A staff of electricians on the hustings flash the result on to a screen on the club terrace outside and the cheer is echoed by the people in the street. Last night was a gorgeous night. The great moon was hanging in the dark blue sky as it does in the tropics. I had just been losing myself on the commons between Wimbledon and the Wandle, and imbibing deliciously cool air that seemed freshly blown from the Atlantic. It was quite midnight when I passed from lights to lights over Hungerford bridge. The windows of the National Liberal Club were ablaze from basement to belfry. I pressed through the dense and vociferous crowd and was soon in the thickest —not of the battle—but of the smoke. At that moment a successful metropolitan candidate entered the smoking room and was quickly recognized. There was a running shout of "bravo Benn." Mr. Benn was the hero of the hour. He had just defeated the Conservative minister, Mr. Ritchie, by a majority of nearly four hundred in one of the Tower Hamlets. He is quite a young man and his history is of public interest. The son of a poor, dissenting minister, he commenced life, like many others, on the lower rungs of the social scale. He served as an office boy within a few doors of the house from which his electoral victory has just been officially proclaimed, in St. George's in the East. He is now a great employer of labour. He is one of the most popular members of the London County Council and whip of the Progressive Party. He is by profession a journalist, and distinguished himself as the "amateur dosser" of the *Daily Graphic*. He is editor and proprietor of the *Cabinet Maker and Art Furnisher*. He was sneered at by Mr. Ritchie as an "outsider." Mr. Benn must relish his revenge—indeed, it is no breach of confidence to say he told us as much. "A few words, Mr. Benn, a few words," said the politicians of the National Liberal smoking room in their quiet English way. Mr. Benn gave us a few words. He spoke of his defeat of the "parent" of the London County Council—Mr. Ritchie—and alluded to himself humourously as "an orphan". He is a nice looking, genial young fellow and worthily represents what he himself proudly referred to as "Young London." Not indeed, the young London of the West, or of shop-keeping Islington and St. Pancras, but of what the *Times* in its imp oten rage this morning calls 'outlying metropolitan constituencies.' The *Times* sees as well as anyone the hand-writing on the wall. The 'Mene, tekel, upharsin' is writ large to-day at Newcastle where John Morley, the GOM's first lieutenant, has been morally defeated. He is elected, but the Conservative or 'Cowenite' candidate tops him in the poll by three thousand. I have spoken of your studying the causes of the result of the present general election. I know not what the general result may be, but one great result is plain. The real question at issue is not Home Rule. In those constituencies consisting of the better class of people I should say that already the fiat of the English people has gone against Home Rule nominally, although even in those cases the vote was less against the Home Rule than against its detested supporters the Radicals. Where the vote generally, as at Newcastle, would under ordinary circumstances be in favour of Home Rule, but where Conservatives have headed the poll, the fact is due the to Labour vote cast against the Gladstonians. It is melancholy to see poor Mr. Gladstone in his Midlothian speeches beginning to toy at the eleventh hour with the labour question. Whether he wins or loses the elections will teach him that the present generation is ahead of him and will not wait his pleasure. As for John Morley the elections should teach him what everyone knew before, that he had better study mathematics and leave politics alone. Whatever happens, the great events of the day are the six 'outlying seats' in London won yesterday by the Liberals, which shows that London is stirring and will soon take the lead in political affairs.

LATEST FROM MONTEVIDEO.

Thursday.

At the last dinner given by the British Minister here, Mr. Satow, the following dignitaries were present: the Foreign Affairs Minister, the Paraguayan Minister, the Spanish and Brazilian Ministers, M. Mercier, Sec. of the French Legation, Señor Alava, Sec. of the Spanish Legation, Mr. Von Vanden, German Consul and Signor Beaujerard, Italian vice-Consul. The greatest conviviality prevailed, and toasts were repeatedly drunk to the prosperity of the Republic.

Mr. Mariano Ferreira gave a soiree last night in honor of Mdme. Ocampo de Hemiendahl Mesdemoiselles Carril, Arrien and Cimary sang, and Mdlles. Lemos and Ramirez recited.

Mdme. de Roosen gives a ball to-morrow night.

The marriage of Mr. Lauro Rodriguez to Miss Maria Holbec takes place on Saturday.

The Custom House receipts this month will probably fall short of last month's. So far the daily returns are under the average. The Custom-House to-day handed over $7,169 to the London Bank.

The President of the Republic has completely recovered from his recent attack of illness. He assisted to-day at a Cabinet Council in the Government House on the subject of certain appointments. Changes are soon expected in the departmental authorities.

Messrs. Torterolo and Co. have brought an action against La Nacional Insurance Company for the recovery of $20,000, for which amount their barque Aurora, which was recently destroyed by fire, was insured in that concern.

The Italian war vessels Sebastiano Veniero and Andrea Provano are expected here shortly from Bahia, where they had been sent by the Italian Government in consequence of the recent outrages at that port on Italian subjects.

The American barque James Arnold is at present in the Cibils Dock, undergoing repairs.

A meeting of the Creditors of the English Bank takes place to-morrow with a view of devising some agreement with the liquidating committee.

Friday Evening.

The Festivity Committee have appointed Dr. Juan Carlos Blanco chairman in lieu of Dr. Ramirez, who resigned.

About 40 boys have been expelled from the Escuela de Artes y Oficios owing to the recent mutiny in that establishment. There is a guard of 20 soldiers in the school.

So far the locusts have done no damage.

Stocks continue to fall on the Bolsa. The commercial community has been painfully surprised by the open advocacy of paper money by a leading paper here.

Messrs. Rocca and Co. are starting a hat factory on a large scale. They have taken the fine premises at the corner of Figueroa and Panama.

PROVINCIAL NEWS.

Letters from Melincué give some particulars in reference to a sanguinary affair which recently occurred there. The row was between two police commissaries and their respective attendants, a sergeant and a soldier, and the result was that the combatants were all wounded more or less dangerously. This was the way in which the affair occurred. A leading local resident gave a ball, and the two commissaries were invited and they went, accompanied the one by a sergeant and the other by a soldier. The two commissaries, by the way, were brothers. They drank heavily during the ball. The sergeant and soldier were placed at the door "on service." One of the commissaries began joking with the soldier and tried to disarm him. The soldier objected. The Commissary replied that he commanded. The soldier retorted that he was on duty and the commissary was therefore no more than a private individual. In the meantime the other commissary was carrying on the same game with the sergeant. Finally one commissary pulled out his revolver, fired and missed. The fight then began in earnest, but the two commissaries got the worst of it, as they received a few dangerous sword-cuts, although they succeeded in wounding their subalterns. Ultimately there were no bullets left and the two commissaries had to give in. They were taken to the police station, and we are glad to say that they have been dismissed.

There is evidently something politically wrong in the provinces, if we may rely on the tone of our exchanges. There is great excitement in Catamarca, where the police openly defy the other authorities. Santiago del Estero is said to be on the eve of serious events. Cordoba is excited about the attitude of the local statesmen towards the Bank Inspector, Mr. Thiriot. San Luis is convulsed owing to a rumored split between the Mitristas and Roquistas. Santa Fé is puzzled at the excursions of its Governor, who has just cleared out to Cordoba, what for, not even his bosom-friends can say. Some people say that he wants to meet General Roca and have a quiet chat with him at the Railway station. Tucuman is afraid of the Radical element, which is gathering strength every day. Salta has just recovered from a 'revolution'. To make matters worse, locusts have reappeared in some provinces, drought prevails in others, and outrages are of daily occurrence everywhere.

The Gas question in Rosario has not yet been settled. The Municipality insist on their demands, while the Company are equally determined to uphold their claims. The result is general obfuscation.

We note with pleasure that the Provincial Government of Buenos Ayres is at last beginning to devote some attention to the necessity of building a bridge across the Rio Colorado. A bill contributing $10,000 towards this work has just been voted by the La Plata Legislature. Years ago the Provincial Government voted $250,000 for the construction of this bridge, but the law was forgotten, much to the detriment of the numerous settlers on the Rio Colorado.

The La Plata Senate has passed a bill proroguing the present session to the 30th October. At the same sitting a bill was passed for the opening of agronomic schools throughout the province —a very excellent idea.

TRADE OF MEXICO.

During the six months ending on December 31, 1890, Mexico exported domestic products to the value of $41,200,000, of which $29,500,000 were precious metals. This shows an increase of $9,400,000 over the exports for the corresponding period of the last fiscal year. Of this increase, $7,400,000 were precious metals, chiefly coined silver and silver ore. Of chief interest, however, are the figures showing the proportion of these exports sent to the leading countries. These are as follows:—

To—	Precious Metals.	General Products.
United States....	59.1	71.2
England	27.1	14.6
Germany.....	4.1	7.0
France.....	9.2	3.4
Spain.....	...	3 1
All other countries	0.5	0.7
Totals	100.0	100.0

It will be observed that the United States furnishes the largest and best market for Mexico. As soon as the United States shows a serious willingness to enter into a treaty of reciprocity with Mexico there is little doubt but that Mexico, in view of the fact that the United States takes over one-half of her exports of the precious metals, and nearly three-fourths of all her other exports, will show a willingness to remove her tariff barriers.—*N. Y. Com-Bulletin.*

RAILWAY ITEMS.

Telegrams received from Santiago yesterday state that three of the passengers recently injured in the collision at San Vicente are dying.

Our Rosario exchanges state that the Santa Fé Government has received offers from foreign capitalists for the purchase of the Provincial line.

Advices from Montevideo state that the works for the extension of the railway from Nico Perez to Treinta y Tres will be commenced shortly.

The contractors of the Transandine Railway have handed over to the Company the Rio Blanco-Uspallata Section.

The Inspeccion Tecnica of the National Railway Board have sent in a favorable report on the proposed covered platforms of the Central Argentine Railway. The Inspectors think that the plans presented by Mr. Craik, manager of the line, consult the comfort of the travelling public.

Mr. Dominico, inspecting engineer of the National Railways Board, has reported favorably on the alterations proposed by the Transandine Railway Company in the line at kilometres 83, 84 and 85. The inspector adds that heavy granite blocks of at least 800 kilograms each must be used in the low grounds as defence against the Rio Mendoza.

The Home-Minister will probably attend a meeting to-day of the Public Works Committee of the Chamber of Deputies. We understand the Committee will take into consideration the Runciman project for a grand Central Terminus. It is probable the Minister's views on the subject will be adopted. It appears that Engineer White, who went to Europe to try and make some arrangement amongst the railway-companies for the erection of such a terminus, has written to the Minister to state that he has met with serious difficulties.

MISTAKEN IDEA.

Mr. Editor

It is mentioned in your 'on 'Change' column of yesterday, that 'it would seem as if there was nothing else to ship to the Plate from England than coal'.

Now, Mr. Editor, as this may lead to misunderstanding as regards the real importance or usefulness of other shipments, it is open to criticism.

Sunlight soap, for one, now takes quite a leading place amongst cargoes for the Plate. This item alone cannot be passed over in silence, and when the people and families get to know its real value to them more thoroughly in the immense saving of the linen and labour, there is no doubt that the present already large consumption will be considerably augmented.

I am dear Sir yours truly

Sunlight Soap Agency,
442 San Martin.

EDITOR'S TABLE.

The sun was up and the Gold Eagle down yesterday, the weather being as nice as possible, and so much news and so many rumours flying about that everybody was cheerful. For a wonder, no new paper in English or any other tongue was announced; but next month is expected to be more prolific in this respect.

The Deputies sat yesterday. Several petitions for pensions were first on the card. Dr. Beracochea moved to question the Finance Minister next Monday as to whether the Government pays the Meat Bounties in gold; if it has paid guarantees to the companies established in Entre Rios in 1891, and whether the said companies have been exempted from payment of export duties on their jerked beef. The House approved the motion. The Christmas Lottery was then taken up, and after a debate in which Deputies Varela, Olmedo, Castro and Gonnet took part, the Bill was passed in "general" and "particular," and the House rose.

Hatched 31, Matched 11 and Despatched 28 were the Civil Registry returns yesterday.

A blaze was started yesterday morning at 3 o'clock in the Bull's Daughter cigar shop in Calle Cangallo. The Bomberos came to the rescue so quickly that the place was saved and very little damage done. The neighbours, however, got a bad fright.

We thank Dr. Espinola for his pamphlet on the Finglhay-Viola lawsuit, and promise ourself the pleasure of reading it from cover to cover.

All the Liverpool and Manchester men in town passed half yesterday in drinking the health of their new members at Westminster. There is an immense fund of solid patriotism in the haunts of King Cotton.

It was rumored last evening in the Clubs that a duel was imminent between two high officers of the army. The affair would seem to have some connexion with a duel recently fought between two other high officers.

Hurrah! Messrs. Galli Hermanos, the well-known news agents, on account of the reduction in postage, are now selling the light penny papers at 15 cents each.

We have much pleasure in welcoming to Buenos Ayres the Rev. Sebastian Nichols, who arrived a few days ago as curate of St. John's Anglican Church. Mr. Nichols is M.A. of Christchurch, Oxford.

An evening colleague complains that weddings are getting scarce and few and far between. Now, girls, this is your own fault. Bachelors will propose if they are dexterously led up to the point. Besides, this is Leap Year, and timid men expect a little extra encouragement.

The 'English', Cangallo 594, tells us that it is now selling off all its winter stock for a song: so those with good voices should apply at once.

The Locusts are now in Santiago del Estero as well as Entre Rios. They are a nuisance; and the next will be a deluge of more or less silly proposals and plans for extinguishing them.

Who made his fortune in the Caridad Lottery yesterday? We did not, so cannot retire from business just yet. Here are the numbers of the principal prizes:—

9,021, $40,000; 3,824, 2,000; 4,684, 1,247 1,000 each; 10,805, 10451, 2,111, 400, each; 4,619, 2,729, 6,744, 1,904, 7,058, 5085, 6,395, 200 each.

The news from Montevideo is that President Herrera is now preparing another Message about some one or other of the numerous public woes B. O. is heir to. The worthy man is now known as the Messenger, and it is rather an apt name for him.

The Evolutionary Squadron sails to-day or to-morrow for for Montevideo; and all will join us in wishing it better luck in its cruise than that to which the ill-fated Rosales was attached.

All fashionable town was talking yesterday of the grand wedding in the Socorro church on Thursday night, when Don Camilo Alvear and the beautiful Miss Elena Quintana were united for life. The sacred edifice was decorated with flowers in extraordinary profusion. It will interest our lady readers to learn that the lovely bride wore her costly bridal veil falling behind, with her charming face uncovered. She was attended by five bridesmaids; Mesdlles Luisa and Susana Quintana, Delia Alvear, Maria Egusquiza and Maria Unzué. After the ceremony there was a grand ball at Dr. Quintana's house. We understand that another wedding in the same distinguished families will shortly take place.

"Calculos alegres" about the next wheat harvest are already being made. It is quite too soon for this sort of thing. The Clerk of the Weather is "boss" in agricultural matters; and the Locusts have often a good deal to say on the point.

Good news. The go ahead empresario of the National Theatre has decided to give afternoon operas on Sundays. This will nicely suit people who live outside town.

The initial preparations to get up the yearly Flower Corso at Palermo have already commenced.

The last number of the *Revista Nacional* contains very interesting articles on the province of Salta and the Dictator Rosas.

The only mails to-day are for Uruguay and Montevideo, at 9 a. m. and 4 p. m.

There was a jollification on board the Houston liner Hydarnes in Dock Two on Thursday, to celebrate the election to Parliament of her popular owner. The captain asked leave to send a few rockets skywards, but the police refused, fearing the population might think that a revolution had turned up when least expected. Nevertheless, they were let fly, and a 'feu de joie' of rifles was also fired. This was too much for 'la autoridad', and Adjutant Alemann and two sailors went on board, and asked for the captain. The latter was up for a lark, so he told the visitors they would find the captain at the bow of the vessel. They went there, only to be told that the captain was at the stern: when they got there they were told he was amidships, and so on, until it began to dawn on the Adjutant that he was being fooled. After an exchange of hot words, the captain said he would do as he pleased on board his own ship, and that his owner was rich enough to pay any amount in fines. Adjutant A. then withdrew and telephoned to the Port Prefect, who very properly told him to let "los buenos Ingleses" enjoy themselves in their own way, and he would make make them pay the piper next day, which we believe he did. The rockets and rifle-firing frightened the wits out of a lot of timid people; and a paper balloon seen in the sky at the Retiro capped the whole affair and confirmed the general belief that a patriotic row was timed for yesterday morning. This is a capital story, as told by our top-of-the-morning colleagues; but, unfortunately, it is not true. The facts of the case are that the Captain had permission from the Marine authorities to illuminate his vessel and to let off 3 or 4 rockets. The official, Mr Alemann, was received with every respect, according to his own statement yesterday, and no more rockets were fired off. There was no banquet, drinking, or dancing on board, and everyone was perfectly sober, but naturally in high spirits on the victory of their employer.

Chile is again on the foreign loan tack, and will soon ask John Bull for nearly a couple of millions of sovereigns. He'll give them, as he has a good opinion of our West Coast neighbours as business men.

The *Prensa* fired another terrific broadside into the Lands and Colonies Office yesterday. The captain of the latter craft, Mr. Oroño, and his first Lieutenant have brought an action for libel against our colleague. This will increase its sale and shinplasters. There is nothing like an action at law for increasing a paper's subscribers. Let all new newspapers remember this fundamental journalistic maxim.

What's this we hear? Foreign medical men are no longer to be allowed to call themselves doctors, as the honour is to be reserved for "hijos del pais." We cannot see where either the fun or the common sense comes into this queer new departure.

Some papers in Germany are hinting at the possibility of the annexation of what they call "Southern Brazil to Emperor William's domain. They point to the fact that, in Rio Grande and Santa Catalina there are 170,000 Germans, with 14 newspapers printed in German. Has not Uncle Sam declared that America is exclusively for the Americans although Dr. Roque Saenz Peña says that it belongs to Humanity at large?

A yachting friend tells us that there is an upside down error in the recent thrillingly important telegram about Emperor William's yacht the Meteor having beaten the Volunteer: it was quite the other way: the Volunteer beat her.

We thank the Asociacion de Escritores y Artistas for their kind invitation to the opening of their new premises on Thursday night; but, as it only came to hand yesterday morning, we could not turn back the clock and manage to be present.

In reference to the recent Reymond tragedy in Paris, a letter from that lively city says: —"There is room for pity and sympathy on one side, in the Reymond tragedy. M. Reymond is an Argentinian, a commission merchant, and married in 1888, to a French lady, aged 20; her life was in every way respectable, and she adored her husband—the latter when a suitor, declaring that he would commit suicide if he was not accorded her hand." The writer is wrong as regards M. Reymond being an "Argentinian." He visited this country a short time ago, but was not born here.

The creditors and liquidators of the English Bank in Montevideo have ceased abusing each other, and had a fraternal palaver yesterday. This is a more business-like way of settling money matters than the "you're another" course hitherto proposed.

Mr. Satow, H. M. Minister to B. O., gave a Diplomatic and Consular dinner on Tuesday. The Minister of Foreign Affairs, Dr. Herrera y Espinosa, was present.

The last mail has brought an official letter from Lord Salisbury, appointing the Rev. S. Fraser Hancock as Chaplain of the English Church at Montevideo.

The Banco de la Nacion and the Caja de Conversion have got up another tiff, and some note paper has been exchanged between them. The former says that it does not recognize the latter's authority, nor its right to use language good enough for inferiors, but not for such a heavy swell as the Bank of the Nation. So the matter stands. There will probably be some resignations before this lover's quarrel is over.

The acceptance trials of the first lot of heavy armor made in the United States recently took place at Indian Head, the result being most satisfactory. The plate tested was one of twenty 14-in. nickel-steel, diagonal plates made by the Bethleham Iron Company, and it more than complied with the contract requirements. The gun used was a 10-in. high-powered breech-loading r

ON 'CHANGE.

Friday, Aug. 5th 1892.

The news of the day was the conflict between the Board of the Caja de Conversion and that of the Banco de la Nacion. The facts of the case are as follows. On the 1st inst. the Board of the Caja de Conversion handed to the Banco de la Nacion three million dollars fresh issue to pay the cheques drawn by the Caja on the Bank to redeem that amount of Patriotic Bonds. With the three millions of fresh paper issue the Board of the Caja sent a curt note to the Bank reminding the Board that it must always have on hand a reserve equal to 25% of the deposits, that it must deposit in the Caja de Conversion 75% of its deposits, and that it must forward its balance-sheets with regularity. This curt note, to say the least, was quite uncalled for, and the Board of the Bank resented immediately what they considered an intrusion on the part of the Caja de Conversion. The Board of the Bank sent a note yesterday to the Chairman of the Caja de Conversion stating that the Caja had neither right nor obligation to remind the Board of the Bank of their duties; that the Caja is bound to hand the funds that may be required by the Bank, finally that the Caja had no right to demand balance-sheets which are published with the regularity fixed by law. The Board wind up with the statement that the tone and style of the note of the Caja may be used in communication between the Caja and its subordinates, but cannot be countenanced by the Board of the Banco de la Nacion. There is no weak milk and tea color about the two notes that have given rise to the present conflict; on the contrary, there is an excess of severity and curtness in both documents, which are admirable for plain speaking. The most amusing feature of this business is that whilst both are Government institutions, the Government so far has had nothing to say in the matter. The Caja de Conversion people stand upon their dignity and their rights, whilst the Bank people ignore not only the jurisdiction of the Caja de Conversion but also the rights which it invokes and the dignity which it assumes. Between the lines of Dr. Alcorta's letter we can read that the Vice-President of the Bank plainly tells the President of the Caja to stick to his business—counting, emitting, and burning the paper money in the old Bolsa building in Calle San Martin, and not to dare to meddle with the bank affairs. The directors will send no balance-sheet to the Caja; on the contrary, at the next board meeting it is thought a motion will be made requiring the Caja to forward its balance-sheets to the bank regularly once a week.

The market does not attach much importance to the conflict between the two financial powers, but some resignations must certainly ensue. The Caja will tolerate no insolence from the Bank and the Bank Board flatter themselves that they are quite independent of the Caja. The President of the Republic will have to mediate to restore some kind of order in the family hutch. Meantime, more literature may be expected from the belicose boards: the market looks on and laughs inwardly, for the whole row is about an issue of three millions, apparently in favour of the Banco de la Nacion, but in reality to pay the cheques drawn by the Caja de Conversion to redeem Patriotic Stock. As we stated before: a game at cross purposes at which both the Board of the Caja and that of the Bank must laugh in spite of their great indignation and ink-throwing.

The gold market continued its downward course this morning. The fresh weakness in exchange and Caja-Banco conflict had little effect upon the march of speculation and the premium ruled even heavier than yesterday, although the fall was not so rapid. Over fourteen thousand ounces changed hands at the first ring: the price opened at 52.90$, rose to 53·10, fell steadily, and closed at 52.80, say 224.41% premium. Three hundred sovereigns were sold at 16.43$, say 226% premium.

Patriotic Bonds were steady in a dead-and-alive market: yesterday's prices were maintained at 71.90 and 72 for cash and 72.10 for end of the month. Internal Bonds were more active to-day and prices advanced: one hundred thousand changed hands for cash at 67.10 and 67: an equal amount was sold on time, at 67.30 for the 31st inst., 67¼ for end of September, and 67.20 for end of October.

A few shares of the Bolsa Building Company were quoted at 130. Catalinas were dull, but steady at 10. Municipal Lottery Bonds or Consols fell to 60.50. La Plata Cedulas were much weaker all round, closing at 29.40 and $29,50.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Immediately after the first ring, Mr. Fariña sold at auction—
60 shares La Edificadora at 76.
145 Villalonga shares at 10.
200 Miñera Industrial at 10.

There was another rush in the exchange market to-day. Very little business was reported and the situation was very weak. Something was done at 47⅛-5/16d. on London, at 4.96¼ fcs on Paris and 4.97½ to 4.98 fcs. on Antwerp. Discounts continue easy, but 5% can only be secured on extra bills at short dates. Money outside on "retroventa" is still difficult, in spite of the plethora of commercial paper.

Cheques of the Provincial Bank changed hands to-day at 39% discount; those of the National Bank were stationary at 20 to 21% discount. Bonos of the La Plata Mortgage Bank were in demand at 18% of their face value.

The profit and loss account of the Santa Fe Land Co. for the year 1891 shows a deficit of £25,509, and this, added to £53,344 in the previous account, makes a total deficit of £78,853. The directors refer with satisfaction to the improved conditon of business affairs in the River Plate, more especially to the very considerable reduction of the gold premium, and although the accounts now presented do not show the effect of this reduction in the value of gold, the directors feel that those for the present year will show that steady improvement in the company's general situation has become apparent.

The Contaduria Nacional has issued an important report on the famous Puerto Sud de Rosario port concession. The Contaduria very plausibly remarks that in concessions of this kind, especially of such magnitude and importance as the port in question, it must be assumed that the concessionaire when making his application to Government had before hand entered into negotiations to secure as a basis the capital necessary to carry out the works. Should the concessionaire have neglected this he must necessarily rue the consequences, whilst the Government must take such measures as tend to defend the interests that the nation may have at stake in the concession. Mr. Canals, the concessionaire of the Rosario Puerto Sud, has appealed to the Minister of the Interior for a three years' extension of the term of grace originally granted on his concession and urges, in defence of his appeal, that the financial straits of the Republic have closed the doors of capitalists in Europe and prevented the carrying out of his port contract. This difficulty, however, is considered as merely temporary, and well founded hopes are expressed that within a very short time the financial situation of the Republic will resume its normal progress. The Contaduria, nevertheless, remarks that though these hopes are plausible enough they are eventually out of the question in the present failure of the concessionaire to comply with his contract, for should affairs not improve, then Mr. Canals, it may be assumed, would have to appeal for another extension of the term or perhaps the repeal of his concession: this would be a serious obstacle to other capitalists who might be willing to carry on the works at present in abeyance, and might delay the execution of a work of transcendental importance to the country in general and to Rosario in particular. In view of these plausible considerations, the Procurador del Tesoro advises the National Government to throw out Mr. Canals' appeal for extension of his contract term.

The Chairman of the Board of Public Works sent to-day to the Minister of Finance the estimates of expenditure of the Riachuelo port works committee for the current month. These expenses are put down at $49,983, including expenses of management, of repairs, of coal, of materials, etc.

Mr. Louis E. Hartagh has published a handy little book with tables of exchange on Europe according to ounce price $32 to 65, say from 200 to 400 price of gold. We recommend the book to bankers, brokers, and merchants.

Passengers arrived by P. S. N. Co's Galicia from Liverpool, etc.:—August 3 Mrs and Miss Dart. Mrs. Pepper. Mr. and Miss de Candia. Mrs. Montague. Mr. M. Watson. Messrs. Kelly (2). Mr. and Mrs. Machado. Mr. G. Hulme, Mr. H. Emaldecia and sons. Mr. E. Girding. Mr. and Mrs. Rosenblatt. 50 third class.

The hull and cargo of iho wrecked vessel Oceana were sold in Montevideo for $880 pf. Buyer, Mr. Calcaquo.

Mr. Christophersen's lease from the Government of a large site at the north Darsena for a coal yard is much talked of, but we see nothing in the matter; he pays the Government a good rent, $9,000 gold a year for the premises, and, as the coal business stands at present, the Government seems to have the best part of the bargain.

A slight bullish rally put up the price of gold at the second ring; eleven thousand ounces were sold for to-morrow; the price opened at $52.80 and closed at $53.10, say 226.26% premium. Sovereigns were nominal at $16.42, say 225¼% premium. The advance did not amount to much, but it was significent to see how suddenly the strong bearish current of the morning was checked. Patriotic and Internal Bonds were dull; the prices of the morning were maintained. Old Gas Share were quoted at 85. A few shares of the French Bank were sold for to-morrow at 46 and Credito Real at 33. La Plata Cedulas were maintained.

The following is a summary of the business effected in stocks and shares at the second ring to-day:—

The ordinary annual meeting of shareholders of the Banco do Roma y Rio de la Plata will come off on Sunday.

It is understood that the famous Bounty Law will be much discussed in Congress ere long. Bounties cost the Government a million dollars last year, and a move is on foot to repeal the objectional law.

There has been a great deal of leave-taking on 'Change within the last few days. Mr. Ruhshause, representative here of the Credit Lyonnais, left for a vacation to Rio. Mr. W. Samson, the eminent ship-broker, has also left on a pleasure trip to Rio with his wife. The French packet Bresil cleared to-day with a very large number of passengers, and the Magdalena, owing to the low tide, did not leave the La Plata dock until yesterday, ploughing her way through mud: she also took a large number of passengers, but the Veloce steamer Vittoria, which only got away yesterday, took by far the largest number, many of whom are bound for Genoa the Superb, to attend the Exhibition. It is very remarkable how little the crisis has affected our first-class passenger traffic with Europe, which goes to show the immense growth of European interests in this country.

Owing to the death of Sr. Giusti, the great almacenero, the firm of Amadeo and Giusti is dissolved, and the business will be henceforward carried on by the new firm of Amadeo and Co., of which Mr. Cesar Barbagelata is partner.

To-morrow Mr. Torres, the well-known broker, will sell 125 shares of the Banco Buenos Aires at auction. Owing to the enormous Government taxation on private banks, bank-shares at present are not much looked for as an investment.

To-day there was a fire at the Banco Hipotecario Nacional, and National Cedulas with the June coupon, for $1,492,700% and for $1,143,100 gold, were burnt, and coupons for $2,787,281% and $284,275 gold were destroyed. The National Mortgage Bank under the administration of Dr. Escalante seems to be well managed, and it is no wonder that the National Cedulas, in spite of everything, hold their own. There was also a Cedula fire held in La Plata at the Provincial Mortgage Bank last Tuesday, but, as they have sent us no particulars, we cannot say how it passed off; all we know is that the Provincial Cedula market has not reflected the blaze.

The Directors of the Curumalan Estancia Company, seem determined to keep up the fame of the Curumalan stock. The steamer Highland Chief brought out 50 pure bred Lincoln rams purchased from Mr. Dudding, who obtained the 1st prize at the Warwick Show also the thoroughbred short-horn bull Broughton Fame, bred by Mr. Aylmer at West Durham; also 23 Yorkshire pigs. The Curumalan Company has also purchased at the Marden Park stud sale last month, besides the stallion St. Honorat by Hermit out of Devotion, four thoroughbred mares. viz.:—Lauristinus (1889) by Glendale out of Venus' Looking Glass, covered by George Frederick; Nell Gwynne (1888) by Gilde oy out of Mary Alice, covered by George Frederick; Pallium (1889) by the Lambkin, covered by Sir Bevys; Sweetsauce 1889 by Sweetbread, dam by George Frederick out of Bourgoyne, covered by Sir Bevys. The Company also purchased two yearlings at the same sale.

The ponton Vanguardia all but went down in the late storm; she dragged her anchor for a mile and a half, and Capt. Serna had a very hard time of it to keep her from going ashore at Quilmes. Luckily, however, two small tug boats came up and towed her into the Darsena. The Captain says they are short of everything on board, that she sprang a leak and is half full of water; the odds are, therefore, that if the harbour master does not keep a sharp look out she will founder in the Darsena, and like the dredge that went down the other day, become a great danger to the shipping. Meantime there is no pontoon outside, and we suppose the Minister of War will put a gun-boat in her place.

The President of the Provincial Mortgage Bank, Sr. Harilaus, is at present at Rosario de la Frontera, and during his absence the administraction of the Bank is conducted by Señor Botet. Mr. Harilaus is expected down shortly.

The growth of tobacco in the republic is something wonderful, and at the rate it is going on tobacco will soon become one of our staple exports; only last month two consignments were made to Europe, and the arrivals from Corrientes and other provinces have been so large that prices have fallen from $18 the ten kilos to 12 and 14. Increased attention is being paid, not only to the quality of the tobacco grown, but also to the curing of the leaf; the very best Havanna seed is being imported, and they are making cigars in town now of Argentine tobacco, which they sell for Havanna in the Cafés and confiterias. The profits in the business are of course enormous.

The Argentine timber trade, it appears, is growing too fast for the requirements of the market, and last month the arrivals of Argentine cedar were so heavy that a million of feet had to be sent to deposit. We have no room here for the long list of the various Argentine timbers arriving from the provinces; but those who are in the trade report a great business going on. There are four vessels at present loading 4,000 tons of quebracho colorado for Europe. Nandubay posts, which most interest our country readers, are of late in better demand and sell in the Boca at the following rates:—

Full posts, $160 per 100.
Regular do, $150 per 100.
Quarter regular do, $140 per 100.
Half do, $130 per 100.
Regular do, $120 per 100.
Quarter good do, $70 per 100.
Estacones, $40 per 100.

The arrival of cedar during the last fortnight is estimated at 1,500,000 feet.

We see in the London papers that an effort is being made to reconstruct the West Argentine Mining Company, which had given alarming symptoms of being on its "last legs". It is proposed that the capital shall amount to £150,000, in £1 shares, credited as 17s 6d paid, and that the new company shall take over the assets and liabilities of the old one and acquire one-half interest in a property in Mexico without payment, in consideration of working the same. This property is stated by the Directors, in a circular issued, to form part of "a valuable group of mines owned in England, of which the propietors have only capital to do justice to a section". It will be necessary to know the name of the concern, and also the extent of the West Argentine Company's assets and liabilities before opinion can be passed on the desirability of the proposal; but we observe the ominous intimation: "If the shareholders do not consent to a reconstruction then liquidation and winding up of the company's affairs must follow at once".

The Minister of Finance has fixed the rate of gold at 320 for payment of Customs dues.

A contract was signed to-day arranging the debt of the Salta Government with the National Bank for the cash to found the Free-and-Easy up there. Congress must aprrove the contract.

There was a depth of 20 feet in the entrance channel in the morning, and many vessels entered. At noon the river began to fall, and soon there was only 18 feet.

The German steamer Porto Alegre will not leave for Hamburg till the 8th.

The Finance Minister refuses to put the report of the Custom House in his Memoria to Congress, until it is revised, as the language in it is insulting to the Government. In consequence, the Minister has prohibited the publication in future of documents connected with his department without his permission.

The Minister of Finance has allowed Don Roberto Lawson to exchange 50 shares of the National Bank for Internal Bonds.

The only arrivals in the Outer Roads to-day were the British steamer Abbeymoor, from Leith, with coal, and the Zavate from Liverpool with 1300 tons of general cargo. The Somerston and Jane Radcliffe left for Rosario to load. The Highland Mary left for La Plata to fill up. The Antonio Lopez left for Spain. The Handel for Liverpool.

Advices from Concordia report cattle in good condition. The price for novillos is very low. Saladeristas expect that next season will be bad for estancieros, and prices lower. The Concordia Saladero killed 35,000 head this year, and the Mocoreta 23,000.

TEA
LA MAGNOLIA
INJURIOUS TEA DRINKING.
In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17·73 of tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.
GUARANTEED PURE.
Beware of gross, imitations of this well-known mark. Sold in tins of 1, 3, 6 and 12 lbs.

CHARLES OLMI
A GRANDIOSE AUCTION.
The best, most costly and notable lot of furniture as yet seen in the country; all from Dieust's, Paris. Inimitable regal Tapestry made to order by Gilbert Ciel (20 Rue des Capucines, Paris). The owner is going to the Interior and the furniture I now offer for sale must attract the attention of all intelligent people, owing to its absolutely exceptional quality. I must also call the attention of art connoisseurs to the great value of the oil paintings, representing thousands of dollers judiciously invested. The artists are all well-known masters, viz.: Lancerotto, Caprile, Manfredi, Esposito, Volpe, Bourget, Lafite, Rodriguez, Cariere, Belleuse, La Ross, Blas and others.
Chandeliers, Carpets, Knick-knacks, Bronzes, Furniture, Tapestry: all are fit for a King's palace. A treasure in works of art; in fact an unsurpassable Exhibition. There is an exceptionally fine Grand Piano by Rachal's.
TO SUM UP: I have never offered for sale, nor has the country yet seen such a set of furniture as this. It represents a fortune.
On Tuesday, August 9th
at noon,
I will sell at public auction, for account of the owner, who is going to the Interior, the costly furniture in his palace at
1230--Calle Callao--1230

BARON LIEBIG, the world-renowned chemist says, "I have though a great series of experiments, satisfied myself of the purity and excellence of your preparation. The bread has no acid, is easily digested, and of the best taste. Aside from the conveniences this invaluable idea of yours has provided, I consider this invention as one of the most useful gifts which sciences has made to mankind." It is certain that the nutritive value of the flour will be increased 10 per cent by your invention, and the result is precisely the same as if the fertility of our wheatfields had been increased by that amount.
What a wonderful result is this !"

ESTANCIA
Rafango Stud
For sale a number of select Stallions 3 and 4 years old, of Shire, Yorkshin, Coaching, Hackney and Irish Hunter blood.
The above lot of horses can be recommended with entire confidence. For colour bone and action they cannot be surpassed to cross with the average mares of the country; to produce a saleable and generally useful horse for this country or for exportation.
The Rafango Stud of Hackney and other blood mares is probably the largest and most select in the Republic.
The Stud can always be seen by appointment. Apply

El Miercoles 10 de Agosto
a las 2 de la tarde
Remataremos por cuenta y orden de una Sociedad y por liquidacion total de la misma, 233,762 hectareas, 66 areas y 39 centiareas ubicadas en la Provincia de Santa Fe, donde como todo el mundo sabe, existen las mas vastas y ricas colonias de agricultores de la Republica y cuyos habitantes no conocen la crisis que ha abrumado al resto de ellas, debido a las esplendidas y abundantes cosechas que les han dado estas sin iguales tierras.
La ubicacion de estas queda al Oeste del gran ferro-carril que arranca de la capital de la republica y cruza toda la rica y poblada zona de colonias terminando en la ciudad de Tucuman.
Comiénsan las tierras que se ofrecen en venta, en la Estacion Arruño del ferro-carril mencionado y van hasta la Estacion Ceres de la cual distan 2 a 2 1/2 leguas estando el resto de ellas ubicadas sobre la Estacion Malbran extendiendose al Sud Oeste de la misma.
Todas estas tierras estan medidas, y midiendose el resto por el Agrimensor Publico, Señor Eduardo Elquera, y seran entregadas amojonadas a todos y cada uno de los compradores una vez escrituradas.
Copiamos de una carta de dicho Agrimensor, lo pertinente a la fraccion que acaba de medir, que dice:—
"Respecto de la clase de tierra, se puede considerar de tener igual calidad de tierra vejetal de 50 centimetros termino medio de tierra negra, terrenos muy altos, el agua potable obteniendose de 6 a 12 metros. No hay montes espesos, (exceptuando las tierras que estan al Norte sobre la Estacion Malbran donde los montes son muy abundantes y en partes impenetrables) sino isletas de arboles m. g. fandubay, algarrobo, palo amarillo, algarrobo negro, etc. etc.
"El lote 85 es algo bajo terreno inferior.
"Los demas lotes son adecuados para la agricultura y se encuentran rodeados de colonias es mas pobladas y otras en formacion
